InstallIQ™ Information

Click the 'Download' button to begin downloading the software using InstallIQ™. When the download box appears, click 'Run' or 'Open' to start downloading. Once the download has been completed, the installation process will begin.

InstallIQ™ manages the installation of your software. During the installation we set cookies and update your registry:

- Our websites install cookies on your computer. The product and last session cookies includes information about when and what products you downloaded. The user cookie helps us to recognize you on subsequent visits. An identification cookie is placed on your computer if you choose to register with us. None of our cookies contain Personally Identifiable Information. For information on how to remove cookies [click here](#).
- InstallIQ™ also updates your registry with a unique installer id. The installer id allows us to recognize you on all our websites. For information on how to remove the registry entry [click here](#).

InstallIQ™ automatically uninstalls once you have received your download.
